# PALLET FORKS

The Rhinox - PLX Pallet forks offer versatility, using a unique multi-pin pick-up, allowing the attachment to be fitted to machines from 12 ton (65mm pins), up to 25 ton (80mm pins).

Our pallet forks are also fully CE certified, meaning it is suitable to be operated on any site as long as the relevant risk assessment has been carried out.

## WHY CHOOSE THE RHINOX - PLX PALLET FORKS ATTACHMENT

- Multi-pin pick-up allows 65mm and 80mm pin diameter fitment.
- Fully CE certified.
- Floating forks making it easier to position under the pallet.
- Spare and replacement parts in stock at all times.
- Max working load of 2500kg.

# PALLET FORKS

The Rhinox - PLX Excavator Pallet Forks Attachment from Rhinox Group is designed to allow a hydraulic excavator to lift palletised materials. This makes the excavator more versatile, cutting costs by reducing the number of machines required on-site.
